

A level Drama

Curriculum Overview

Core aims of the subject at Key Stage 5

We believe that students deserve a broad, balanced and ambitious Drama curriculum, rich in skills and knowledge, which immerses students in a range of styles. Drama is an important component in educating a well-rounded individual, giving essential opportunities for growth and challenge beyond the mere subject content. The Drama Department has a firm philosophy founded on preparing the minds of young people to cope with the outside world as well as educating students about theatre and its history and developing their SMSC.

Every pupil is entitled to work creatively and explore areas that interest them, both 'in' and 'through' the medium of Drama are vital to SMSC and subject that is accessible to all. The drama curriculum is spiral in nature; essential drama and social skills are built into the curriculum. Pupils have the right to express themselves, be creative and be given the opportunity for play whilst working to achievable and tailored goals - Drama gives these opportunities in a safe, encouraging environment. The future of the children we are educating now is uncertain and challenging. The greatest skills we can give them is the ability to achieve whilst harnessing their own creativity, whilst communicating this with others in order to become independent learners and thinkers. Drama helps pupils to improve peer relationships, confidence and resilience. All of this is in addition to giving them the tools they need to continue to enjoy, through participation or appreciation, their rich Dramatic heritage throughout the rest of their lives as part of their life-long learning.

The curriculum will encourage students to become confident and independent thinkers, who will be able to take on challenging opportunities to create original work and critically analyse professional and non-professional repertoire. Students will have an appreciation of their own work and that of others, always demonstrating respect and empathy.

Students at Brine Leas will explore their creativity through a variety of styles, themes and topics. Students will become confident and independent thinkers and strong communicators. They will participate in an engaging and motivational practical curriculum that supports their personal development alongside the development of new acting skills, as well nurturing existing talent.

This means:

- They will study a range of practitioners, plays and styles of theatre, in order to develop their practical and theoretical understanding of Drama.
- Through verbal and written evaluations, they will confidently articulate and analyse inspirational live productions and their own performances. Within this, they will identify drama techniques and skills and form a critical opinion.
- They will regularly make, perform and respond to Drama, in order to develop their own practice, through the delivery of a broad and exciting curriculum which develops breadth and depth of drama knowledge
- They will develop core transferable skills, such as communication, co-operation and confidence that will be motivational and assist them with future preparation for any chosen career path

The department will give students the opportunity to share work in the local community, for example with the Crewe Lyceum Theatre where high-quality school productions are performed. Performance work is also shared with the community through performance events such as the 'School Spectacular' Festival at Brine Leas School. This is where students can facilitate community involvement and showcase their hard work and performance pieces which they have produced in extra-curricular clubs such as dance and drama.

Finally, students are expected to approach the course with a high level of maturity and are encouraged to embrace the holistic study of the theatre. Students are assessed on the ideas that they contribute to discussion, the process of creating drama and performance.

Trips and visits

Students must see at least one Live Performance as part of the course (this cannot be a recording)

Assessment

Class work will be assessed in class through formative assessment by teachers. Assessment for Learning will be embedded in practice. Grades/levels will be used when necessary (e.g. mock exams or past papers) and when relevant, work will provide 'next steps' and targets for students to address. Assessment sheet proformas will be used to record 'one to one' meetings with student, set targets and indicate progress. A mix of verbal and written feedback will be given according to the component taught.

Homework

Homework will support the learning in class; consolidation, lesson preparation and extended research as well as practice exam questions. Folders will be used to file practice exam questions, research notes, class notes and extended written tasks. Homework may also be given in the form of line learning or group rehearsals.

Clubs and/or intervention

Students are encouraged to see as much Live Theatre as possible to support their learning. Catch-up sessions and rehearsals are offered when needed. Students are encouraged to support the department with main school extra-curricular clubs, open evenings and there will be opportunities to showcase their work to an audience such as Showcase evenings, Summer Spectacular. They can also audition for the school production.

Parental/Carer support

Parents are encouraged to support any live performances, help with learning lines and seeing live theatre where possible.
