

Guidance re Examination Scores for Year 7 & 8

As the GCSE examinations and the grading system of 9-1 are still very much in it's infancy, we do not feel it is appropriate at this stage to try to 'grade' the scores from our internal examinations for year 7 and year 8 students that are based upon a limited part of the GCSE syllabus.

We use Predicted Grades across all years to indicate to parents/guardians the progress each student is making. The examination scores from the Year 7 and Year 8 are part of the evidence to guide our teachers when they are making these predictions.

The Percentage score has been shared for each examination to show students how well they have achieved in that particular assessment. Class teachers will discuss with their classes their expectations and set targets with individuals about the areas they should address to help them progress in the coming months and years.
