

How should you approach Science home learning in year 10 for Combined Science

How long shall I spend on Science every week?

Just try to do what you can. We recommend around 3 hours a week.

What should I do?

We would like you to watch the set lessons produced by the Oaks National Academy online classroom and carry out the set activities within the lesson. We will also provide the relevant pages for the kerboodle online text books / loaned text books for you to read, make notes from and answer the questions on each page should you find it difficult to access the online lessons.

Each week would like you to complete an activity and upload this through assignments on Microsoft teams and your teacher will give you feedback.

How do I login and use the online resources?

See below for instructions on how to access kerboodle:

[Kerboodle instructions](#)

For the Oakes academy lessons follow the links below depending on your year:

[Year 9](#)

[Year 10](#)

Oakes academy lessons to be completed	Pages of the online book to read /make notes from/answer questions on. (optional or if you cannot access the Oakes lessons)	Assignment to be completed and uploaded for your teacher to check
Physics- atomic structure: Lesson 1 and 2 Working scientifically: Lesson 1 and 2	Physics text book topic P7 Pages 92-96 and P276-280 for working scientifically	Take photos of the work you have done this week and upload it onto teams

What if I don't have a printer?

You can answer the questions on the worksheet in your exercise book or on paper, or you can make a Science learning log by attaching all the work together.

How do I know if I have got the answers right?

The online tasks will give you immediate feedback. We will provide you with the answers to text book questions, exam questions and work sheet answers on teams. Your teacher will also give feedback on assignments handed in.

What if I cannot access the internet or online text book

If you are unable to access the student book and activities online, we have a **limited** number of textbooks that we are able to loan out. If you are interested in borrowing a book, please put in a request using sciencelearning@brineleas.co.uk and we will arrange a time for books to be collected from the school reception.

How can I contact the Science department?

We have a new email address so that parents and students can contact us with any home learning queries. sciencelearning@brineleas.co.uk
