September 2018

Dear ,

I am writing to inform you about the way Brine Leas School communicates with its Parents, Guardians and Carers. The 'My Child at School' portal is a student specific webpage which delivers "live" information on how your child is progressing in all aspects of school.

Through the portal your child's behaviour, attendance, homework, and recent reports can all be viewed. Additionally fixed information such as their timetable, lessons, teachers and the School Calendar are also available. You can also request data changes such as address and contact telephone numbers through the portal.

Below is a screen print of the portal with a sample student.

Please use the login details below to see your child(s) details.

At the moment we are only issuing one login per family. If you require another please email data.team@brineleas.co.uk

As with all internet based portals, please keep your password and login details private and secure. The portal is an additional information pathway only and is not intended to be a replacement for any existing system currently used by school. Our aim is to ensure that the communication between school and home is quick and accurate. We hope that the My Child at School (MCAS) portal is useful and that Parents, Guardians and Carers find access to information easy and quick.

Finally, if you have any technical issues with the portal please email the Data Team on the email address above.

Yours sincerely,

Vanessa Barber
