**Brine Leas School**

An Academy

Believe, Learn, Succeed

We hope that all our Year 7 students are able to attend the residential visit to the Lakeside Centre, Newby Bridge

This booklet contains information about the visit and will hopefully provide the answers to some of your questions about the visit.

In addition, we will hold a meeting on **Monday 23<sup>rd</sup> September 2019 at 6.30pm** in the Main Hall at Brine Leas School. A representative from Lakeside and the Transition Team will give a presentation, which will give you more information and allow us to answer any queries you may have.

### **What are we going to do?**

During the week students will work together to develop skills in thinking, problem solving, co-operation, communication and creativity. All of these skills will be important throughout their school careers and beyond.

The Lakeside centre team have developed a programme of activities, which will utilise their amazing surroundings. It allows students to get to know each other, their Progress Tutors and other members of the Brine Leas Team whilst having fun.

The working day will be long and practical in nature, and at the end of it, students will be rewarded with a variety of social events.

### **Does everyone have to go?**

It would be fantastic if every student in Year 7 could take part in the visit. We feel that anyone who does not go on the residential will be missing a vital part of their first year in making new friends and building their confidence, as well as a very enjoyable experience.

We know that some students may not have spent much time away from home before, but feel that it is a very important part of their growing up, helping them to learn to cope with feelings of 'homesickness'.

Students will be divided into small groups with one teacher which will help them to feel more secure and we will do everything to ensure that their week is a happy one.

### **Starting Points:**

The main aim of this residential is to help students settle into life and work at a large and active school. They will gain valuable social experiences, which will help them grow in independence and confidence, and work as members of large and small groups.

They will also learn some of the basic skills, which will be important in their work at school. The idea is that this will be a springboard for the future and an excellent start to a successful secondary school career.

### **Why are we going to Lakeside?**

Firstly, there is no doubt that a residential centre provides opportunities that are not available in school. There is the exciting change of location, atmosphere and above all, pace. All of which generate much enthusiasm, creativity and hard work.

Secondly, Lakeside is well equipped as a base for our work, and helps us use this enthusiasm to the full. It is also set in an area of great natural beauty.
